

254 PC

Overhead sprinklers

Full- and part-circle metal impact sprinkler
1" female

Specifically designed for irrigation of field edges

Applications: all overhead irrigation with solid-set or mechanized systems in pastures and crops like sugarcane, beet, cotton and maize

- High water distribution with spacing up to 24 m
- Heavy-duty, all-brass construction for durability
- Plastic non-clog vane for wider range and wind-resistant droplets
- Sand and dust protection

Performance table

Nozzle mm	P bar	Q ₂ m ³ /h	D m
5.0	4.0	1.900	35
	5.0	2.090	38
	6.0	2.270	40
5.5	4.0	2.270	37
	5.0	2.510	39
	6.0	2.730	41
6.0	4.0	2.670	37
	5.0	2.980	40
	6.0	3.230	42
6.3*	4.0	2.890	39
